

# Where to use Barrier Matting

An effective barrier matting system, when correctly specified, will help to minimise the risk of slip accidents caused by wet flooring and lower maintenance costs by significantly reducing the amount of dirt and moisture tracked into a building. Barrier matting can not only be used at a building's entrance and access points but also in other areas that are subject to increased risk of soiling and heavy wear. In many cases the optimum performance is achieved by combining different types of barrier matting.

The illustration below is designed to act as a guide to show some of the areas of a building that are at risk. These are divided into zones, which are referred to throughout the catalogue.

## Zone 1 Exterior Entrances & Access Points

### Primary Barrier Matting

Products:	page
Esplanade 9000	16
Esplanade 8500	18
Esplanade 6000	20
Esplanade 5000 <sup>HD</sup>	22
Esplanade 1500	24
Esplanade 1000	26
Topguard	28

- Removes excess dirt prior to entering a building using a scraper wiper
- Increases the effectiveness of internal primary and secondary matting
- Ideal in heavy traffic areas

## Zone 4 Other Areas

Products:	page
Boulevard Stripe <sup>HD</sup>	38
Boulevard 7000	40
Boulevard 6000	42
Boulevard 5000 <sup>HD</sup>	44
Boulevard 1500	46

### Secondary Barrier Matting

- Removes and retains dirt and moisture to prevent ingress to adjacent floorcoverings
- Ideal for use in internal areas subject to a risk of spillage and soiling such as canteen / vending areas or breakout areas within an office environment
- Products are produced from high performance fibres that are suited to intense cleaning to ensure long life appearance retention. All products carry the additional protection of a wear warranty

## Zone 3 Interior Circulation Areas and Some Interior Entrances & Access Points

Products:	page
Boulevard Stripe <sup>HD</sup>	38
Boulevard 7000	40
Boulevard 6000	42
Boulevard 5000 <sup>HD</sup>	44
Boulevard 1500	46

### Secondary Barrier Matting

- Removes and retains dirt and moisture to prevent ingress to adjacent floorcoverings
- Often used in conjunction with Zone 2 primary entrance mats to create additional protection for surrounding floorcoverings. Can, in some circumstances, be used as stand alone entrance barrier matting
- Ideal for use in areas of heavy traffic and heavy wear such as staircases, reception areas, lift lobbies and internal entrances such as factory to office areas etc. **Note:** Boulevard Stripe<sup>HD</sup> and Boulevard 7000 are not recommended for use on staircases
- Offers excellent appearance retention properties when cleaned in accordance with Gradus recommended cleaning methods. All products carry the additional protection of a wear warranty
- Boulevard 6000 & Boulevard 5000<sup>HD</sup> are available in a choice of broadloom or tile options

## Zone 2 Interior Entrances & Access Points

### Primary Barrier Matting
